

**This is a brand new, one-of-a-kind concept. After ten years of development it is now ready to be actualized. Cart is an interactive restaurant. Taking the strongest parts of popular eating culture and combining it into one super fun interactive concept.**

**This is American and World Cuisine twisted into an interactive dim sum style experience. Guests are seated at special tables that allow them to watch the action unfold. Guests are seated among vertical gardens and abundant live growth pergolas. These gardens supply our restaurant.**

**Guests then get to partake in a large variety of foods that are prepared at, or brought to, their tables "tapas style"**
